

Hello,  
My name is John Roling and I'm a proud subscriber to XM Satellite Radio. XM offers me the ability to hear tons of music that I would never hear on homogenized local radio. It also provides me with my local weather and traffic, and that is a huge deal to me.

I PAY for the privilege of using XM Radio because it is better, more diverse and more up-to-date than anything in my local Chicago market. Please reject the NAB Petition 04-160 and continue to let XM innovate and provide value to me and other subscribers. Thank You.

Respectfully yours,  
John Roling  
Lockport, IL
